

Industrial Workshop

Zero-defect manufacturing strategies towards on-line production management for European factories

10th October 2019 

Kilometro Rosso Innovation District
Gate 4 - Centro delle Professioni
Via Stezzano, 87 - Bergamo, IT 

10.30 a.m. - 3.30 p.m. 

In the European manufacturing context, there is an ever-increasing need for solutions for **sustainable industrial growth**, which allow the efficient use of resources and the creation of high value-added quality products.

The Industrial Workshop aims to be an opportunity to share **Z-Factor's** highly innovative and technological **solution** towards **zero-defect production**.

The **ICT and IoT** technology aims at reducing waste and optimize costs especially in **industrial sectors** such as rubber-plastic, mechatronics, electronics and robotics, metalworking, but also in other contexts, through the appropriate adaptations.

HORIZON 2020 

TIMETABLE

The speeches will be in English

- **10.30 a.m.**
Registration and welcome coffee
- **10.50 a.m.**
Opening and Welcome
- **11.00 a.m.**
What is Z-FactOr?
 - Z-FactOr System overview
 - Z-FactOr System Architecture*Certh and Atlantis*
- **11.30 a.m.**
Standardisation towards Zero-Defect Manufacturing
Inova+
- **12.15 p.m.**
Round table with Q&As
- **12.30 p.m.**
Light lunch
- **1.30 p.m.**
Application of Z-FactOr to use case companies
 - Benefits and gains
 - Shop-floor data collection and security*Neco, Microsemi, Durit, Brunel and Holonix*
- **2.20 p.m.**
Industry sector applicability
Cetri and Atlantis
- **2.35 p.m.**
QU4LITY European Project
QU4LITY partner: Intellimech
- **2.45 p.m.**
Round table with Q&As and closing
- **3.00 p.m.**
One-to-one session (upon request)
